

THE PATUXENT DENTAL SOCIETY

proudly presents:

2009 Infection Control Update by Dr. Melissa J. Mulreany

Program Goals:

The seminar is intended to address current requirements for infection control and regulatory compliance in dental offices. Updates to the blood borne pathogen standard and advances in the evaluation and treatment of certain communicable diseases will be presented. Both doctors and staff may benefit from attendance since continuing education in infection control for dental relicensure and annual training requirements for MOSH compliance are included in this single program.

Course Objectives:

- -Recognize strategies to prevent disease transmission in the dental environment
- -Understand applicable hazard communication and infection control regulations
- -List elements for annual employee health and safety training
- -Identify post exposure management issues
- -List mandatory recordkeeping documents

Dr. Melissa Mulreany is celebrating **20 years of Service 1989-2009**

Dr. Mulreany is a graduate of the University of Maryland's Baltimore College of Dental Surgery. She has practiced general dentistry in the private sector and with the United States Air Force. After a hand injury curtailed her practice of clinical dentistry, she directed her career toward assisting health professionals with issues of regulatory compliance and infection control.

She has operated her own consulting firm, which provides individual office evaluations and group training seminars. Her entertaining courses employ a common sense approach to enable health professionals to survive the changing array of communicable disease laws and work safely in today's dental office. She also serves in a number of advisory positions, including as a member of the Expert Review Committee for Infectious Diseases with the Maryland State Board of Dental Examiners and as a consultant to the Council on Scientific Affairs for the American Dental Association. In addition, she is the author of numerous articles and is a Contributing Editor for the resource text *Infection Control Management Forms, Checklists & Guidelines*.
