

From the Hospital Floor to the Dental Chair-

Perspectives from hospital based dental practice

Leah Leinbach DMD, MPH

Learning Objectives:

- oral/oropharyngeal cancer (demographic changes, screenings, pre-radiation oral evaluations, post-treatment management)
- direct oral anticoagulants (brief introduction, complications from perspective of a general dentist, our management)
- heme/onc therapies (oral findings, long-term management of treatment--chemo/stem cell transplant/immunotherapy etc)
- cardiology/cardiovascular surgery (pre-valve clearances, LVADs)
- antiresorptives/angiogenesis inhibitors (what they are, who is on them, what that does to the mouth)
